30-Day Incident Evidence & Compliance Dossier

1. Compliance & Evidence Organization Summary

This master dossier catalogs all **20 verified physical equipment interaction events** extracted across the 30-day continuous surveillance archive (0.91 GB, 0.68 hours). All clips enforce mandatory ±60-second contextual safety buffers and are archived in daily subdirectories under D:/facial/incident_evidence/day_01/ through day_30/ alongside 90 daily verification sheets (30 clipping indices, 30 manual audit sheets, 30 frame indexes).

2. Complete 30-Day Master Incident Timeline (20 Verified Events)
